

One Source For All Of Your High Performance/ Value HDMI Cabling Needs

▶ Brilliant Coloration with Glossy Finish

	Green	Blue	Red
1 Meter <i>(3.3 feet)</i>	G101	B101	R101
2 Meter <i>(6.6 feet)</i>	G102	B102	R102
3 Meter <i>(9.9 feet)</i>	G103	B103	R103
4 Meter <i>(13.2 feet)</i>	G104	B104	R104
6 Meter <i>(19.8 feet)</i>	G106	B106	R106
8 Meter <i>(26.4 feet)</i>	G108	N/A	N/A
10 Meter <i>(33 feet)</i>	G110	N/A	N/A
15 Meter <i>(49.5 feet)</i>	G115	N/A	N/A

As high definition (HD) technology has become the norm for most home theater systems, HDMI cables have emerged as the most popular HD connection cable as they can transmit both HD video and surround sound audio. The problem now is that because most components use an HDMI connection, running multiple HDMI cables between components can be confusing. Color Coded HDMI Cables eliminate this problem, allowing you to use a different color cable for each component. Whether you're connecting a cable or satellite receiver, HDTV, stereo receiver, DVD player, Blu-ray player or PS3 to a home theater system, you can quickly identify the components you're hooking up based on the color of the HDMI cable you are using.

HDMI™
HIGH DEFINITION MULTIMEDIA INTERFACE

▶ HDMI Features & Benefits

- All Version HDMI® Compliant
- High Speed HDMI® with Ethernet
- Fully Supports 3D
- Audio Return Channel support
- Beyond 1080P Full HD
- Deep Color & x.v.Color
- 24K Gold Plated Connectors
- Oxygen-free Copper Conductors
- Triple Shielding
- CL2 Rated PVC Jacket For In Wall Use
- UL Rated
- 1m~6m: 28awg ; 8m~15m: 26awg

▶ Cost effective long run solutions

Increasingly the conduit of choice for long haul HDMI is UTP with baluns at each end. We also see HDMI over Ethernet as a transport of interest to some. Whether you prefer real time streaming of HDMI or transmitting HDMI as network data, both approaches place demands on category wire that go well beyond that of high speed data networks. In recognition of this need Capitol offers you our specially designed Cat6. Perfect for Gigabit Ethernet applications Capitol's UTP will support 10 / 100 / 1000 Mps data rates with notably improved performance over Cat 5e. This wire is up to the current and future demands of high density / high speed communications at a price you won't believe!

CONSTRUCTION & CROSS SECTION

90 Degree Up HDMI Adaptor (DM1704)

90 Degree Vertical Flat HDMI Adapter (DM1714)

- Compact design with durable ABS shell
- High-temperature thermoplastic insulation good for both indoor/outdoor
- Solid copper construction for lower resistance and optimum signal transfer
- 24K gold plated connector for supreme conductivity
- Multiple shielding for maximum isolation from EMI

HDMI Snap-In Coupler (DM1709)

- Female to female jack
- Compatible with nearly all QuickPort & Keystone style wall plates

HDMI Extender & Power Adapter Combo (DM1701)

- Support 480i/p, 720p, 1080i/p with HDCP
- Supports VGA, SVGA, SXGA, UXGA (1600x1200) & 1920x1200
- Support cable lengths up to 60M (200')
- Power come directly from HDMI sources
- RoHS compliant
- External power supply and adapter included
- Power adapter plug flexibility to the source device or extender
- Compact, durable, fixable with the included clip

Available Exclusively From
