For Immediate Release

Capitol Adds MX HomePro Cloud-Based Home Control Systems to Its Selection of Advanced URC® Products

MX HomePro Brings Simple One-Touch Control to the Connected Home

EAGAN, MN, October 31, 2016 – Capitol, the leading consumer electronics distribution source for residential systems and light commercial contractors as well as CE dealers, e-tailers and premium incentive resellers, is expanding its selection of URC® products with the addition of the recently introduced MX HomePro, a new cloud-based smart home control system that debuted last month at CEDIA Expo.

The MX HomePro is the third URC series to be offered through Capitol, which also offers URC’s Complete Control and Total Control products.

“URC resonates with custom pros because their products are among the most well-designed in any category, let alone one that emphasizes ergonomics as much as it does technology,” said Curt Hayes, President and CFO, Capitol. “MX HomePro extends the benefits of URC products to a consumer market that will appreciate the way it offers one-touch control of connected home products, from lighting and HVAC to security cameras and Z-Wave® products.”

MX HomePro, which includes an ergonomic URC remote control, compact Smart Hub, and the MX HomePro mobile app, delivers on-the-go control via smartphone and tablet. Simple programming makes it easy to get started quickly, and the MC HomePro Editor helps dealers maintain customers' systems from any location with internet access. The cloud-based Editor software features convenient programming via PC, Mac, smartphone or tablet.

Added Hayes: "URC is one of my favorite success stories in the custom channel. [URC Founder and CEO] Chang K. Park and his remarkable company continue to excel in a competitive market. MX HomePro is a good example of how URC sets new standards with every product rollout."

About Capitol

Capitol is the leading distribution source for residential systems contractors, retailers, PRO AV contractors, and premium incentive resellers who are looking for home theater, telephone, integrated home systems, and commercial AV products. The company is famous for taking a 360-degree approach to its business, offering retailers high-quality products at competitive prices, plus hands-on application training, expert technical help and unmatched customer service. Capitol offers hundreds of application-based education courses throughout the year, including filled-to-capacity classes at CEDIA and other industry events, in addition to "on campus" programs at the company's headquarters as well as the company's web site. For further information, visit the company's web site at www.capitolsales.com, or call 1-800-467-8255.
