**For Immediate Release**

## **Capitol Debuts CS Consulting Services for Next-Level Design Support**

**EAGAN, MN, August 21, 2019** – Capitol, the leading consumer electronics distribution source for residential systems and light commercial integrators, is now offering an enhanced level of design and consulting services by way of the CS Consulting Services program.

As an adjunct to Capitol’s famously aggressive customer service that features one of the most lauded education series in the custom and light commercial installation channels, CS Consulting Services features a wide range of services, including: network design, configuration and support; residential and commercial automation system design; and residential and commercial A/V configuration.

“Our Sales Engineers are here to assist with every step of the design and installation process,” said Curt Hayes, President and CFO, Capitol. “However, we saw the need to create a next-level of service to support our customers with the deepest level of design assistance in residential and pro projects.”

The CS Consulting Services team consists of like-minded and determined individuals whose extensive backgrounds in all areas relating to the custom channel are funneled into custom-created programs to support customers on a focused, one-to-one level, at reasonable rates.

For further information, call Capitol Sales at 800-467-8255.

## **About Capitol**

Capitol is a leading nationwide distribution source for residential systems contractors, retailers, PRO AV contractors, and premium incentive resellers who are looking for the latest electronics across several categories including: smart home, home theater, telephone, integrated home systems, and commercial AV products. The company has 120+ popular brands, thousands of products and offers free parcel ground freight shipping for all online orders shipped to their customer's primary business address.

Capitol's consultative approach makes them more than just a source for competitively priced products. They take the time to learn about their customer's needs and provide them with expert technical help, free system design services and unmatched customer service. Capitol provides their customers with dozens of free educational webinars each year and several hands-on training sessions at their office in Eagan, MN.
