For Immediate Release

Capitol Lowers Prices on Three Leading Peerless-AV® UltraView™ Outdoor TVs

UltraView™ is the Ultimate 4K Display Solution for Outdoor Theaters

EAGAN, MN, July 9, 2018 – Capitol, the leading consumer electronics distribution source for residential and light commercial systems, as well as premium incentive resellers, today announced lower prices on three of Peerless-AV’s top-performing outdoor televisions.

The three models – UV652 (65”), UV552 (55”), and UV492 (49”) – are part of Peerless-AV’s UltraView™ UHD Outdoor TV series, acclaimed for its maintenance-free, year-round reliability, making it a favorite among custom installation professionals who require all-season outdoor entertainment solutions.

“Every year, our customers install higher numbers of outdoor entertainment systems,” said Curt Hayes, President and CFO, Capitol. “A big, bright display is the heart of any high-performance outdoor theater, and none have a better reputation for performance and reliability than UltraView UHD models from Peerless-AV.”

Peerless-AV’s UltraView series is comprised of products that are specifically designed for dependability in all types of weather, and temperatures ranging from -22°F to 122°F. Among their many benefits are exceptional color and video quality from any viewing angles, direct

sunlight readability, and DC power ports for safe storage and power for small video equipment, including consumer-grade Blu-ray players and streaming devices.

Added Mr. Hayes: “There may not be a shortage of outdoor TVs available to custom pros, but only a select few offer value and dependability like UltraView models.”
